

“De-Christianizing” the Church
(Part 2 – Regaining a Proper Perspective)

Passage: Ecclesiastes 12

- A proper perspective, grounded in God’s wisdom, is necessary for a genuine and flourishing walk with God.
- The church must be built upon the wisdom of God. If Christians live in such a way that relegates God’s wisdom to some religious corner of their week, then live apart from it every other time, they will never understand the true nature of their relationship with God. They will fail to flourish in their faith and in their lives.
